

Footnote arrangement

The display method of the footnote can be specified by `axf:footnote-stacking` attribute. By specifying `-ah-footnote-stacking: block`, footnotes are positioned in the block progression direction. Alternatively, by setting it to `inline` footnotes will be positioned in the inline progression direction. The default value for this `block`.

Antenna House Formatter is a most powerful formatting and printing software⁽¹⁾ using XSL-FO and XML/HTML with CSS.⁽²⁾

This software conforms to XSL 1.1,⁽³⁾ which is a specification for displaying / printing XML documents in a fine manner. Also it supports the page formatting with the layout setting by the CSS Level 3 specification which is currently under formulation in the CSS Working Group

⁽¹⁾Depending on the formatting capability, Antenna House Formatter (formatting using XSL-FO and CSS) and Antenna House CSS Formatter (formatting using CSS) are available.

⁽²⁾XSL-FO and CSS cannot be mixed.

⁽³⁾See also “XSL-FO Conformance” in the Online Manual.

The footnotes on this page are positioned in the inline progression direction by specifying `-ah-avoid-widow-words-ah-footnote-stacking: inline`.
