

Page Layout 1

This sample demonstrates automatic switching of layout between odd and even pages:

- The header text aligns to the left on the left-hand (odd) pages and to the right on the right-hand (even) pages.
- Similarly, page numbers and footer text align to the right on right-hand pages and to the left on left-hand pages.
- The wider margin is placed on the right side of left-hand pages, and conversely, on the left side of right-hand pages. This alternating layout enhances readability and aesthetic appeal.
