Character Style

Example of specifying an italic typeface, specifying a bold typeface.

- This is a **bold** character.
- This is an *italic* character.
- This is a mixture of ***bold and italic*** characters.
- This is a ^superscript.^ character.
- This is a ~subscript~ character.
- This is an <u>underline</u> character.
- This is a o̅v̅e̅r̅l̅i̅n̅e̅ character.
- This is a ~~line-through~~ character.
- This is an example of enclosing text with solid line.
- This is a dots line.
- This is an example of specifying red for the text.
- This is an example of specifying cyan for the text.
- As this example shows, you can **modify** ***various styles of the character*** by specifying <u>one style</u> or by specifying **mixed styles** **flexibly**.
