# Scalable Vector Graphics

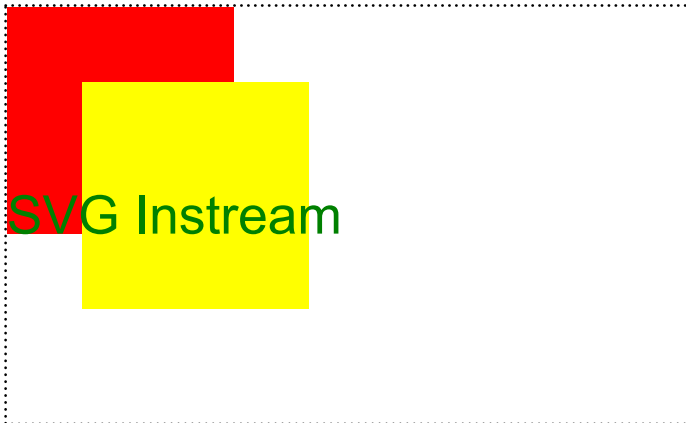

## Case 1. Instream foreign object

If content-width and content-height is not specified, width and height of svg element is used as content-width and content-height.

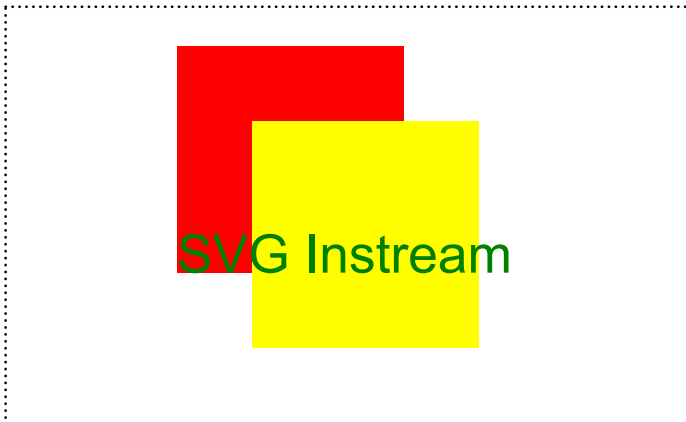

## Case 2. Instream foreign object

Width: 9cm, height: 5.5cm, content-width: 4.5cm, content-height: 4.5cm

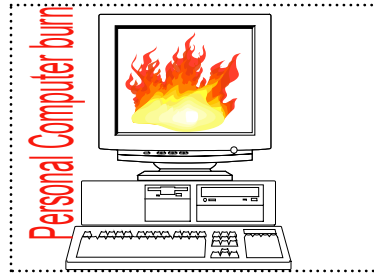

## Case 3. Instream foreign object

Width: 9cm, height: 5.5cm, content-width: 4.5cm, content-height: 4.5cm, display-align: center, text-align: center

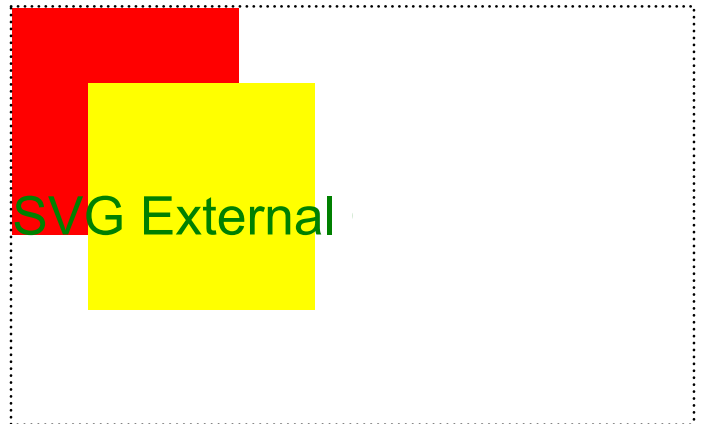

## Case 4. External Graphic

## Case 5. External Graphic

Width: 9cm, height: 5.5cm, content-width: 4.5cm, content-height: 4.5cm

## Case 6. External Graphic

Width: 9cm, height: 5.5cm, content-width: 4.5cm, content-height: 4.5cm, display-align: center, text-align: center
