

This FO has a declaration section that changes the Formatter configuration when it is rendered to PDF but only for this document. This document will be in PDF 1.7 and tagged even if no configuration file is used. This feature can be used to control the configuration of Formatter from with a stylesheet instead of having to rely on an external tool.

```
<fo:declarations>
<axf:formatter-config
xmlns:axs="http://www.antennahouse.com/names/XSL/Settings">
<axs:pdf-settings pdf-version="PDF1.7" tagged-pdf="true"/>
</axf:formatter-config>
</fo:declarations>
```
