

Footnote arrangement in the column document

This is an example of footnote in the multi columns document. With `axf:footnote-position`, you can specify whether the display position of a footnote inserted at the lower part of a page per each block or span all. No settings are made in the first page. In this case, a footnote is positioned with span all.

AH Formatter is a most powerful formatting and printing software ⁽¹⁾ using XSL-FO and XML/HTML with CSS. ⁽²⁾

⁽¹⁾ Depending on the formatting capability, AH Formatter (formatting using XSL-FO and CSS) and AH CSS Formatter (formatting using CSS) are available.

⁽²⁾ XSL-FO and CSS cannot be mixed.

⁽³⁾ See also [XSL-FO Conformance] in the online manual.

The second page shows an example of arranging the footnotes under each column by specifying axf:footnote-position="column"
