This document has footnotes with automatically generated numbers. There are 5 footnotes at the end of this line all of which have automatically generated numbers. In this sample I set the id numbers manually but normally they would be generated during the XSLT stage. [1] [2] [3] [4] [5]

```
footnote anchor number code:
<axf:footnote-number id="f1"/>
footnote label code:
<axf:footnote-number-citation ref-id="f1"/>
```

1   content of first footnote
2   content of second
3   content of third footnote
4   content of fourth footnote
5   content of 5th footnote
