Double-wave border form

In Antenna House Formatter V7.3 and later, `-ah-border-wave-form:` can also be used to specify the double-wave form. The third attribute value is valid for `border-style: double-wave;` and indicates the wave width. If the value is omitted or is auto, it is assumed to be 0.5.

```
border-style: double-wave;
```

```
border-style: double-wave; -ah-border-wave-form: 6 0.125 0.5;
```

```
border-style: double-wave; -ah-border-wave-form: 2;
```

```
border-style: double-wave; -ah-border-wave-form: 5;
```

```
border-style: double-wave; -ah-border-wave-form: 10;
```

```
border-style: double-wave; -ah-border-wave-form: 10 0.7;
```

```
border-style: double-wave; -ah-border-wave-form: 10 0.3;
```

```
border-style: double-wave; -ah-border-wave-form: 10 0.3 2;
```
