Chapter 1.

Cherries are a delicious treat. They grow on trees

Berries are a delicious treat.`[empty wrapper with index key "berry^^"]` They grow on trees and bushes

Apples`[index range start, id="idx-apple-01" , index-key="apple^^"]` are a delicious treat. They grow on trees and are green and red `[index key "apple^green^"]`.

All about apples

Apples are closely related to roses and pears.

There is some thought that the apple eaten by Eve was actually a pomegranate.

Cherries are charming

Cherries come in many varieties, including Bing^[index key "cherry^Bing^"] and Queen Anne^[index key "cherry^Queen Anne^"].

Queen Anne^[index key "cherry^QueenAnne^"] cherries are use to make marichino cherries because they are white in color.

Cherries can be used in pies and cobblers to good effect.

Cherries are seldom combined with apples^[index range end, ref-id="idx-apple-01"] in the same pie.
