

Test ID: tblmkr-04

Test of table markers in a multi-flow layout. The table breaks across flows as well as across pages. **It's not clear from the initial CR draft what the behavior for marker retrieval at flow breaks is.** Region "R" (the left-hand region) has a background color of yellow, region "S" (the right-hand region) has a background color of pink. The table's containing flow is mapped into both regions.
