

Pair Kerning in Alphabets

By using a pair kerning value of Western fonts, you may set whether the space between letters should be trimmed or not. If the value of letter-spacing is not 0, it would be regarded as specifying none.

Latin script:

To WALT

To WALT

Greek script:

ΓΑΜΜΑ

ΓΑΜΜΑ

Cyrillic script:

ТАЙНА

ТАЙНА

The letter-spacing value is non-zero:

To WALT

To WALT
