

Double-wave border form

In Antenna House Formatter V7.3 and later, `axf:border-wave-form` can also be used to specify the double-wave form. The third attribute value is valid for `border-style="double-wave"` and indicates the wave width. If the value is omitted or is `auto`, it is assumed to be `0.5`.

`border-style="double-wave"`

`border-style="double-wave" axf:border-wave-form="6 0.125 0.5"`

`border-style="double-wave" axf:border-wave-form="2"`

`border-style="double-wave" axf:border-wave-form="5"`

`border-style="double-wave" axf:border-wave-form="10"`

`border-style="double-wave" axf:border-wave-form="10 0.7"`

`border-style="double-wave" axf:border-wave-form="10 0.3"`

`border-style="double-wave" axf:border-wave-form="10 0.3 2"`
