

Specifying whether to justify the last line after condensing the overflow

Specifies whether to set `text-align-last: justify` automatically on the last line after condensing the overflow by specifying `'-ah-condensed-text-align-last'`. For the conditions under which the feature is effective, see ['-ah-condensed-text-align-last'](#) in the manual. This feature is available from AH Formatter V7.1.

-ah-condensed-text-align-last: false;

`-ah-condensed-text-align-last: false` does not change the last line. If `'text-align-last'` is specified, follows its setting.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Nulla consequat massa quis enim. Donec.

-ah-condensed-text-align-last: true;

Sets `text-align-last: justify` in the last line when `-ah-condensed-text-align-last: true` is specified.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Nulla consequat massa quis enim. Donec.

-ah-condensed-text-align-last: justify;

`-ah-condensed-text-align-last: justify` sets `text-align-last: justify` when the last line is `text-align: justify`. Whether or not `text-align: justify` is determined by whether or not the element with the `-ah-overflow: condense` specified is `text-align: justify`.

Without the setting of `'text-align'`

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Nulla consequat massa quis enim. Donec.

With the setting of `text-align: justify`

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Nulla consequat massa quis enim. Donec.

-ah-condensed-text-align-last: auto

If `-ah-condensed-text-align-last: auto` is specified, follows the setting of ['-ah-condensed-text-align-last'](#) in the Option Setting File.
