

# Adding a "continued" indicator when a table is split

When a table is split across pages, it's helpful to indicate that the content continues from the previous page or will continue on the next page. This can be achieved using running elements in CSS. The following example demonstrates how to add "continued" indicators to the headers and footers of a table.

<b>Product type</b>	<b>Item</b>	<b>Item Details</b>
Product type 1	Item A	Item A Details 0 Item A Details 1 Item A Details 2 Item A Details 3 Item A Details 4 Item A Details 5 Item A Details 6 Item A Details 7 Item A Details 8

.....*continued*

*continued.....*

<b>Product type</b>	<b>Item</b>	<b>Item Details</b>
Product type 2	Item B	Item B Details 0 Item B Details 1 Item B Details 2 Item B Details 3 Item B Details 4 Item B Details 5 Item B Details 6 Item B Details 7
