

Using the CSS Font-stretch property

Here is an example of making a font to be condensed or extended with font stretch. In Antenna House Formatter, percentage and numerical values are extended as specifiable values. i.e. font-stretch: 50%;

Absolute keyword values have the following ordering, from narrowest to widest :

- | | |
|--------------------|-------------------|
| 1. ultra-condensed | 6. semi-expanded |
| 2. extra-condensed | 7. expanded |
| 3. condensed | 8. extra-expanded |
| 4. semi-condensed | 9. ultra-expanded |
| 5. normal | |

font-family: serif;

- | |
|--------------------|
| 1. Peaceful World. |
| 2. Peaceful World. |
| 3. Peaceful World. |
| 4. Peaceful World. |
| 5. Peaceful World. |
| 6. Peaceful World. |
| 7. Peaceful World. |
| 8. Peaceful World. |
| 9. Peaceful World. |
-
- | |
|--------------------|
| 1. Peaceful World. |
| 2. Peaceful World. |
| 3. Peaceful World. |
| 4. Peaceful World. |
| 5. Peaceful World. |
| 6. Peaceful World. |
| 7. Peaceful World. |
| 8. Peaceful World. |
| 9. Peaceful World. |

The relative keyword values :

1. normal	4. narrower
2. wider	5. narrower*narrower
3. wider*wider	

font-family: serif;

1. Peaceful World.
2. Peaceful World.
3. Peaceful World.
4. Peaceful World.
5. Peaceful World.

font-family: sans-serif;

1. Peaceful World.
2. Peaceful World.
3. Peaceful World.
4. Peaceful World.
5. Peaceful World.

The percentage keyword values :

1. 50%	4. 150%
2. 75%	5. 200%
3. 100%	

font-family: serif;

1. Peaceful World.
2. Peaceful World.
3. Peaceful World.
4. **Peaceful World.**
5. **Peaceful World.**

font-family: sans-serif;

1. Peaceful World.
2. Peaceful World.
3. Peaceful World.
4. **Peaceful World.**
5. **Peaceful World.**

The number keyword values :

1. 0.5	4. 1.5
2. 0.75	5. 2.0
3. 1.0	

font-family: serif;

1. Peaceful World.
2. Peaceful World.
3. Peaceful World.
4. Peaceful World.
5. Peaceful World.
1. Peaceful World.
2. Peaceful World.
3. Peaceful World.
4. Peaceful World.
5. Peaceful World.
