

Barcode Color and Size

Barcode color can be specified by using the 'color' parameter of the data scheme. The formatted size of the barcode can be specified with the 'height' and 'width' properties of the `<img>` element. The [Barcode Generator Option](#) must be purchased separately.

Barcode color

No value specified for 'color'

<code>color=red</code>

<code>color=#0000FF</code>

<code>color='rgb-icc(#Grayscale, 0.5)'</code>

<code>PNG, color='cmyk(0.2, 0.4, 0.4, 0.2)'</code>

```
SVG, color='cmyk(0.2, 0.4, 0.4, 0.2)'
```

Barcode size

Without 'height'

height: 10mm

height: 40mm
