

Double-wave border form

In Antenna House Formatter V7.3 and later, axf:double-wave-form can also be used to specify the double-wave form. The third attribute value is valid for border-style="double-wave" and indicates the wave width. If the value is omitted or is auto, it is assumed to be 0.5.

border-style="double-wave"

border-style="double-wave" axf:double-wave-form="6 0.125 0.5"

border-style="double-wave" axf:double-wave-form="2"

border-style="double-wave" axf:double-wave-form="5"

border-style="double-wave" axf:double-wave-form="10"

border-style="double-wave" axf:double-wave-form="10 0.7"

border-style="double-wave" axf:double-wave-form="10 0.3"

border-style="double-wave" axf:double-wave-form="10 0.3 2"
