

Character outline

'axf:text-stroke' specifies the outline stroke of a character, whereas 'color' sets its fill color. Set it as axf:text-stroke="2pt green", and the width and color of the character stroke will be set accordingly. For more details on ['axf:text-stroke'](#), please refer to the Online Manual. This feature is available in Antenna House Formatter V6.5 and later.

axf:text-stroke="2pt green" color="white"

Antenna House
