Specifies whether to place a hyphen also at the start of the line when breaking lines at a hyphen

In Portuguese hyphenation, a hyphen is also placed at the start of the line when a line break occurs at a hyphen. 'axf:double-hyphen-translineation' adds a hyphen at the beginning of a line in any language as well. This feature is available in Antenna House Formatter V7.4 or later.

axf:double-hyphen-translineation="auto"

Works as true when the language is specified by double-hyphen-translineation in the Option Setting File. The default value for double-hyphen-translation is "por".

Este é um teste de hifenização para "Antenna-House-Formatter", em que o valor do atributo axf:double-hyphen-
-translineation é "auto". Este é um teste de hifenização para "Antenna-House-Formatter", em que o valor do atributo axf:double-hyphen-translineation é "auto".

axf:double-hyphen-translineation="true"

Place a hyphen also at the start of the line when a line break occurs at a hyphen.

これは、"Antenna-House-Formatter" のハイフネーションテストです。axf:double-hyphen-translineation="true" を指定しています。これは、"Antenna-House-Formatter" のハイフネーションテストです。axf:double-hyphen-
-translineation="true" を指定しています。

This is a hyphenation test for "Antenna-House-Formatter", where the value of the axf:double-hyphen-translineation attribute is "true". This is a hyphenation test for "Antenna-House-Formatter", where the value of the axf:double-hyphen-
-translineation attribute is "true".

axf:double-hyphen-translineation="false"

Does not place a hyphen at the start of the line when a line break occurs at a hyphen.

This is a hyphenation test for "Antenna-House-Formatter", where the value of the axf:double-hyphen-translineation attribute is "false". This is a hyphenation test for "Antenna-House-Formatter", where the value of the axf:double-hyphen-translineation attribute is "false".
