Specifies whether printer marks are drawn over the page content

By specifying 'axf:printer-marks-over-content', printer marks are drawn over the page content. This feature is available in Antenna House Formatter V7.4 or later.

axf:printer-marks-over-content="true"

Usually, printer marks are hidden when they overlap the page content. axf:printer-marks-over-content="true" can be specified to draw printer marks over the page content.
