Footnote arrangement

The display method of the footnote can be specified by '[axf:footnote-stacking](#)'. Footnotes are positioned in the block progression direction by specifying axf:footnote-stacking="block". By setting 'inline', they will be positioned in the inline progression direction. The default value is 'block'.

Antenna House Formatter is a most powerful formatting and printing software[1] using XSL-FO and XML/HTML with CSS.[2]

This software conforms to XSL 1.1,[3] which is a specification for displaying / printing XML documents in a fine manner. Also it supports the page formatting with the layout setting by the CSS Level 3 specification which is currently under formulation in the CSS Working Group.

---

[1] Depending on the formatting capability, Antenna House Formatter (formatting using XSL-FO and CSS) and Antenna House CSS Formatter (formatting using CSS) are available.

[2] XSL-FO and CSS cannot be mixed.

[3] See also "[XSL-FO Conformance](#)" in the Online Manual.

The footnotes on this page are positioned in the inline progression direction by specifying axf:footnote-stacking="inline".
